## SKILLS

---

- **Technologies:** C#, .NET, .NET Core, ASP.NET, MVC, SQL Server, Azure SQL, Azure DevOps, GitHub, Visual Basic, JavaScript, Angular, Typescript, HTML, CSS, Python, Git
- **Concepts:** Unit Testing, Object-Oriented Programming(OOP), Refactoring, CI/CD, Agile, Database Design, API, REST, SOLID, Debugging, Database Management, Version Control, Web Development, SDLC

## WORK EXPERIENCE

---

### LandCo Investments - Application Developer

May 2023 - July 2023 (Contract)

Anaheim, CA

- Identified and resolved column sorting discrepancies, ensuring data is displayed accurately and users can efficiently access information; leading to a 75% reduction in user-reported sorting issues.
- Enhanced the data retrieval and integration process through RESTful Apis for Parcel modules, resulting in a 15% increase in data access efficiency and 20% reduction in data retrieval time.
- Coordinated with the Senior Lead to improve the home landing page, which is responsible for hundreds of listings daily, resulting in a 25% increase in user interaction.

### Planet DDS - Junior Software Engineer

November 2021 - March 2023 (Layoff)

Newport Beach, CA

- Proficiently refactored SQL join errors causing data inaccuracies and misrepresentations on multiple screens, leading to a 15% increase in data accuracy and a 20% reduction in data-related issues across the platform.
- Significantly improved the UI of the insurance registration page by integrating Angular Material components such as datepicker and dropdown menus, resulting in a 30% decrease in registration errors.
- Collaborated with the Support Team, achieving a 48% decrease in overall client success tickets, reducing the count from 150 to 78 within a month.
- Actively participated in code reviews, maintaining a code quality score of 95% and reducing post-release delays by 25%.
- Performed software maintenance by debugging codebases written in multiple programming languages, including C#, JavaScript, and Visual Basic.

### KitchMet - Full Stack Developer

April 2021 - November 2021

Los Angeles, CA

- Developed a user-centric front-end interface using HTML, CSS, and JavaScript, responsible for handling staff registrations daily.
- Managed database tables and stored procedures in SQL Server, incorporating foreign key constraints, joins, and batch inserts, resulting in improved database performance, including a 10% reduction in query response time.

## PROJECTS

---

- Blog (<https://khanhnguyen625.github.io/blog-app/>) - Github Pages, HTML, CSS
- Personal Portfolio (<https://khanhnguyen625.github.io/kh4nhcodes.github.io/>) -Github Pages, JavaScript, HTML, CSS

## EDUCATION

---

- California State University, Fullerton - Bachelor of Arts, Business Administration, (Sept 2011 - May 2015)
